We foster a sense of trust with our stakeholders and meet our responsibility of being a reliable and successful business partner by considering integrity as a key element of our business behaviour.

JUME šped. s.r.o.'s Code of Conduct is designed to ensure that all our members, with support from JUME šped. s.r.o.'s senior executives and managers around the globe, understand and comply with the principles we apply to our business activities. We encourage our members to personally live up to and consistently value the principles of the Code of Conduct when engaged in JUME šped. s.r.o.'s business whether internally or in the public. The principles set forth mark the minimum standards of how JUME šped. s.r.o. conducts business and is represented in the global marketplace.

We are convinced that our Code of Conduct is an effective instrument of risk prevention to protect us from negative consequences such as monetary penalties or reputational damages. And at the same time, we are convinced the Code of Conduct makes us recognised as a company of integrity whose members apply unquestionable and clear principles in the business.

JUME šped. s.r.o., December 2021

Michal Melicher
Managing Director

Introduction

Purpose and Scope

Integrity is a key element of JUME šped. s.r.o. 's business behaviour. JUME šped. s.r.o. is positioned as a trusted and reliable business partner in all its activities. The Code of Conduct compiles the principles of JUME šped. s.r.o. 's business conduct worldwide. All principles of the Code of Conduct are equally important and the order in which they are listed is not based on relevance.

The Code of Conduct applies to every affiliate of the JUME šped. s.r.o. and to all board employees and staff employees (collectively referred to as "Employees" hereafter; people manager referred to as "Managers") of JUME šped. s.r.o. Employees are personally obliged to strictly adhere to the principles set out in the Code of Conduct. In cases of doubt, exercising good judgment in line with the spirit of the Code of Conduct is expected.

Responsibilities

The Code of Conduct sets out the expected business principles for JUME šped. s.r.o. More specifically the responsibilities concern the roles and functions as follows:

All JUME šped. s.r.o. employees must

- follow the principles in the Code of Conduct,
- become aware of, understand, and follow policies relevant to their job, and
- feel comfortable asking questions, seeking advice and raising concerns without fear of retaliation.

When in doubt employees shall ask themselves:

- "Is what I intend to do legally permitted and in line with JUME šped. s.r.o.'s Code of Conduct and policies?"
- "Would my managers, colleagues and subordinates view my conduct as ethical?"
- "Would my family and friends view my conduct as ethical?"
- "Would those who are directly involved view my conduct as ethical?"
- "Would I want to be treated the same way?"
- "Would I feel comfortable if my conduct appeared in the media and attributed to me?"

In addition, all JUME šped. s.r.o. employees must

- create and encourage a culture of integrity within their sphere of influence – including an openness for asking questions and raising concerns,
- lead by example and actively provide guidance to staff members when questions regarding potentially questionable business conduct arise,
- be fully accountable for the misconduct of their staff,
- supervise their staff members properly,
- select qualified staff members for tasks and provide appropriate instruction in accordance with applicable laws and regulations,
- play an active role in regularly monitoring compliance with the Code of Conduct,
- communicate clearly that violations of laws and / or the Code of Conduct may have serious employment consequences, and
- correct detected misconduct and ensure appropriate disciplinary actions as needed in accordance with applicable internal policies and laws.

Failure to follow the Code of Conduct may result in disciplinary action. Employees are expected to fully cooperate when investigations of misconduct are performed.

Need help?

The Code of Conduct is not exhaustive and cannot cover or anticipate every situation employees may encounter during the course of their employment with JUME šped. s.r.o. Although additional policies may provide more specific guidance, there may be instances where employees will still have questions that are not directly addressed by any policy.

When in doubt, employees are encouraged to ask questions. They can consult with their Managers for guidance and advice, and can contact various employees of JUME šped. s.r.o.'s Legal and Compliance organisation to discuss specific situations or concerns.

Reporting concerns

Employees who become aware of issues or practices that may violate the Code of Conduct or laws are encouraged to report their concerns to Managers or any person of trust, such as line managers, internal auditors, legal counsels and compliance officers. As an additional reporting channel, Employees can make use of the Confidential Reporting Line (via e-mail, telephone or web-form) to report in a safe, confidential and, if desired, anonymous manner. Additional information regarding the Confidential Reporting Line is available on JUME šped. s.r.o. 's intranet.

Non-retaliation policy: Employees reporting any concerns in good faith should not fear retaliation and will be under the protection of JUME šped. s.r.o. and local laws where applicable. However, knowingly providing false or misleading information may lead to disciplinary action.

JUME šped. s.r.o. will not engage in any form of active (“giving”) or passive (“receiving”) bribery and expressly prohibits its Employees from engaging in any form of bribery. The prohibition also applies to any contributions or payments made through consultants, suppliers, or other third parties on behalf of JUME šped. s.r.o.

Violations of anti-bribery laws can lead to costly enforcement actions and harsh criminal penalties against companies and the individuals involved.

Additionally, JUME šped. s.r.o. prohibits facilitation payments which are usually small payments mostly made to lower-level governmental employees to secure the performance of routine government actions.

Respected and Fostered Principles

- Employees must familiarise themselves with all relevant anti-corruption laws and conduct business in strict compliance with these laws. Transactions that appear to be illegal or unethical should be rejected.

Conflicts of interest also exist when business connections are entertained with competitors, customers or suppliers beyond the regular business relationship, or when family members or friends of Members have interests in third parties that are in business with JUME šped. s.r.o. Conflicts of interest may also arise when a Member's personal interest takes precedence over JUME šped. s.r.o.'s while that Member is acting within her or his capacity as a JUME šped. s.r.o. employee.
